## Submission of Application of Pre Service Inspection of Sendai Nuclear Power Station Unit No.2 and Change of Application of Pre Service Inspection of Sendai Nuclear Power Station Unit No.1

Kyushu Electric Power Company Inc. has received approval of construction work plan from the Nuclear Regulatory Authority on May 22, 2015, which we have submitted on July 8, 2013 as the conditions for a review to verify that Sendai Nuclear Power Station Unit No.2 complies with the new regulatory requirements.

Under the Reactor Regulation Act, we have today submitted application of pre service inspection of Sendai Nuclear Power Station Unit No.2 to the Nuclear Regulatory Authority for receiving the on-site review to check our safety measures are actually in line with the approved construction work plan.

We have also changed schedules of pre service inspection of Sendai Nuclear Power Station Unit No.1, which have submitted on March 19, 2015, and submitted application of change to the Nuclear Regulatory Authority.

We will respond sincerely and politely to the pre service inspection of Sendai Nuclear Power Station Unit No.2 as well as Unit No.1 by the Nuclear Regulatory Authority and concentrate our efforts to the safety check for the restart of our nuclear power station.
