## **Announcement of the Gas Plan for Families and Private Shops**

In the Kyushu Electric Power Group's Medium-term Management Policy, we explained that we would enter the retail gas sector as a part of energy services addition to the gas wholesale business by tank lorries, etc. we have managed.

Today, we announced that we decided the gas plan for families and private shops toward the Gas Retail Liberalization.

In addition, we will start to receive applications for the plan by a telephone or our website from tomorrow.

We will meet diverse needs of our customers and make an effort to become a corporate group that provides Japan's best energy services.

**"Make a brighter future for generations to come"**

Kyushu Electric Power's Mission is to contribute toward  
the realization of a comfortable and environment-friendly lifestyle  
today and for generations to come.
