Kyushu Electric Power Company Inc.

Permission for a change in reactor installation of Specific Safety Facilities regarding efforts to improve safety and reliability of Sendai Nuclear Power Station No.1, 2

Today, we announce that we received the permission for a change in reactor installation of Specific Safety Facilities regarding efforts to improve safety and reliability of Sendai Nuclear Power Station No.1, 2 from NRA, which we applied for on December 17,2015.

We will continue to make best efforts to improve safety and reliability of Nuclear Power Station.

Note: Specific Safety Facilities

Facilities which have the capability to prevent damage of containment vessel needed for the times when the loss of the cooling functions and subsequent damage of the reactor due to the deliberate collision of an aircraft and other terrorism to the reactor. And establishment of them are required by the new regulatory standard enforced in July 2013.

“Make a brighter future for generations to come”

Kyushu Electric Power's Mission is to contribute toward
the realization of a comfortable and environment-friendly lifestyle
today and for generations to come.
