March 22, 2018
Kyushu Electric Power Company Inc.

Schedule of Startup and Restart of Generating Electricity of Genkai Nuclear Power Station Unit No. 3

We hereby announce that as of today, Genkai Nuclear Power Station Unit No.3 (Pressurized Water Reactor, 1,180MW output) is expected to start up on March 23, and restart generating electricity on March 25.

Note that date of restart of generating electricity could change due to turbine balance adjustment etc.

After restarting generating electricity, we will conduct the adjustment operation as increasing output gradually. Accordingly, the plant is expected to undergo the integrated performance test and return to the commercial operation in late April.

We will continue to make sincerely an all-out effort to deal with the Nuclear Regulation Authority's inspections, and carry out remaining process carefully without sticking to the schedule, putting utmost priority to safety.

"Make a brighter future for generations to come"

KYUDEN GROUP's Mission is to contribute toward
the realization of a comfortable and environment-friendly lifestyle
today and for generations to come.
