Kyushu Electric Power Co., Inc.

## **Return to Commercial Operation of Genkai Nuclear Power Unit No.3**

Genkai Nuclear Power Unit No.3 (PWR, Electric output 1,180 MW) had been inspected for the 13th regular inspection since December 11, 2010, and been conducted the adjustment operation at rated heat output operation through gradual increase of output, after restarting power generation on April 18, 2018.

We hereby announce that Genkai Nuclear Power Unit No.3 has returned to commercial operation at 16:00 today after finishing Inspection No.5 as the last part of the pre-operation inspection in New Regulatory Requirements and the comprehensive inspection as the last inspection of the regular inspection.

We will continue to make our best effort to keep stable and safety operation of power stations.
