Kyushu Electric Power Co., Inc.

Change of Power Plant Discontinuation and Planned Suspension Plan in Electricity Supply Plan for FY2018

Today, we submitted the change notification of electricity supply plan* of power generation and retail sectors to Organization for Cross-regional Coordination of Transmission Operators (OCCTO) as a result of restart of Genkai nuclear power station unit No.3 and 4.

We announce that we revised the power plant discontinuation and planned suspension plan in this notification as follows.

* = Plan regarding the next ten years forecasts for electricity demand and power plant development and discontinuation etc., which is notified to the Ministry of Economy, Trade and Industry via OCCTO in accordance with the Electricity Business Act.

[Discontinuation]
