

Approval of Construction Planning regarding Newly installed facilities of Specific Safety Facilities for Sendai Nuclear Power Station Unit No.2

We have applied separately in three divisions for approval of construction planning regarding Specific Safety Facilities (SSFs) of Sendai nuclear power station unit No.2.

Today, we received the approval regarding “Newly installed facilities” which is the third division, from Nuclear Regulatory Authority.

We will continue to make best efforts to improve safety and reliability of our nuclear power stations.

(Reference)

Applications for approval of construction planning were submitted separately as below with a view to install SSFs within the time required by laws.

1. Facilities installed in a reactor subsidiary building
2. Newly installed buildings
3. Newly installed facilities

○Status of application regarding SSFs of Sendai nuclear power station unit No.2
