Kyushu Electric Power Co., Inc.

Kyuden Group Integrated Report 2023

Today we have released the “Kyuden Group Integrated Report 2023” (both Japanese and English version).

The Kyuden Group has been issuing integrated reports since fiscal 2021 to communicate comprehensively financial and non-financial information and to provide a consistent story on our medium-to-long term vision, strategies, and key initiatives.

In this report, we have focused on clearly communicating the value creation story based on the strengths of the Kyuden Group. Along with a message from our president, we have enhanced the content by addressing the following points:

- Initiatives toward Sustainable Enhancement of Corporate Value
 - Analysis of the current situation and future direction towards PBR being constantly above 1
 - Growth through the realization of carbon neutrality by leveraging our strengths as an industry leader in decarbonization
 - Further strengthen human capital management
- Information regarding Taskforce on Nature-related Financial Disclosures (TNFD)
 - Initiatives based on TNFD recommendations (beta version)
- Governance Information
 - Enhanced disclosure of discussions in the Board of Directors, structure of executive remuneration and cross-shareholdings

Going forward, we will continue to improve and enhance information disclosure, including the publication of this report, to facilitate and strengthen communication with our stakeholders. Through these efforts, we aim to improve and enhance our initiatives for the sustainable growth of the Kyuden Group and society.

View the “Kyuden Group Integrated Report 2023” from the following URL:

(Japanese version) https://www.kyuden.co.jp/ir_library_annual.html

(English version) https://www.kyuden.co.jp/english_ir_library_index.html

Other publications on our website include the “Financial Data Book 2023” and the “ESG Data Book 2023”, which respectively provide more detailed information on financial and non-financial matters. In addition, there is the “Kyuden Group Communication Book 2023”, which is a compact summary of the Kyuden Group’s efforts to realize a sustainable society and is available in Japanese only.

“Enlighten Our Future”
KYUDEN GROUP’s Mission is to contribute toward
the realization of a comfortable and environment-friendly lifestyle
today and for generations to come.
