

Presenting the Kyuden Group Environmental Report 2018.

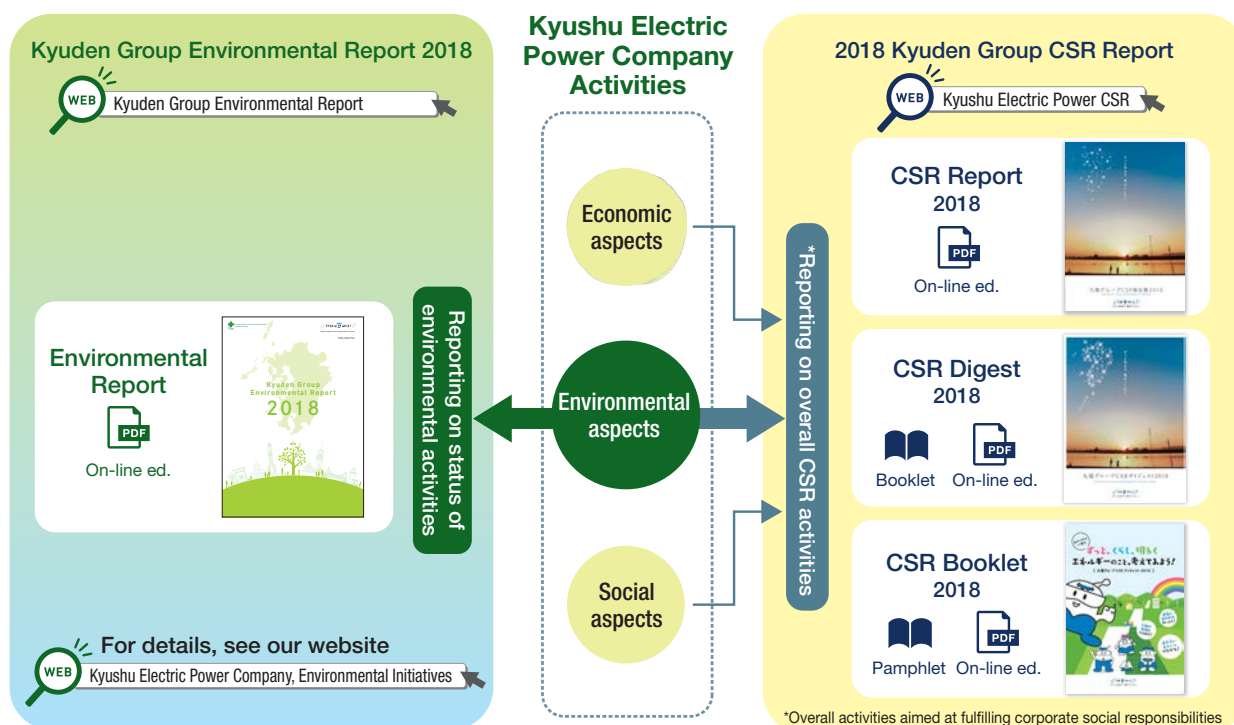

(Kyuden Group = Kyushu Electric Power Group)

■ Editorial Policy

Since 1996, the Kyushu Electric Power has published an Environmental Action Report to let the broader public know what we are doing as a company to help the environment.

For this 2018 version, we have changed the report's name to the Kyuden Group Environmental Report. This year's report provides detailed information on the environmental initiatives undertaken in FY2017 based on the 2017 Kyushu Electric Power Company Group Environmental Action Plan.

■ Important Note

Totals in graphs and tables may not match due to the effects of rounding.

Kyuden Group's Mission

Make a brighter future for generations to come

“Comfortable and environmentally-friendly”

This is the future we want to give our children.

This is the Kyuden Group's Mission.

Through these four ongoing challenges we are able to express our heart through action.

1. Steady and reliable, environment-friendly energy.
2. Services that truly satisfy.
3. At one with Kyushu, Asia, and the world
4. Discovering solutions, and putting them into practice.
